Important:

If there are problems with the application locking (probably due to coverage), close and start again. The app should pick up where you left off.

A couple of reporting options (at the moment)

1. If you use the Results Report option on the logon page this will show recorded results by date/division (live reporting!). This is open to all.
2. If you logon to a previously completed match, you will see the results sheet for that match. This is, of course, password controlled.
